

**Gurgaon-India, 14<sup>th</sup> January 2008**

**InterGlobe Aviation Limited (“IndiGo”) and Sabena Flight Academy sign a long term “Ab-Initio” Pilot Training Services Agreement**

Sabena Flight Academy, a world leading independent flight academy based in Brussels, Belgium and Arizona, USA, and IndiGo, India’s fastest growing Low Fare Airline, are accepting applications under their Ab-Initio Pilot Training Services agreement.

Under the terms of the agreement, Sabena Flight Academy provides IndiGo with “ab-initio” flight training for young Indian pilots in its subsidiary Sabena Airline Training Center (SATC) located in Falcon Field, Arizona, USA as well as the option of using Sabena Flight Academy’s simulator facility in Brussels, Belgium for integrated multi crew coordination and type rating courses.

“Sabena Flight Academy has a strong reputation for providing world class pilot training,” said Steve Harfst, Chief Operating Officer for IndiGo. “Their focus on safety and their new fleet of glass-cockpit equipped Diamond aircraft will ensure that our cadet pilots will get the best training available as they work toward earning their Commercial Pilot Licenses,” said Harfst.

“Actually we are training more than 200 Indian pilots in our facilities in Arizona USA” said Jack Waldeyer, President and CEO of Sabena Flight Academy. “Our collaboration with IndiGo is not only widening our market share but is also opening new business perspectives in India for our company. We are extremely proud of being selected by IndiGo and we are looking forward to provide high standard training, including a combined Multi Crew Cooperation and Type Rating course on A320 at our facilities in Brussels”, said Waldeyer.

Sabena Flight Academy’s unique cadet program will be preceded by assessment and selection tests which will be held in different cities in India. “IndiGo and Sabena Flight Academy are looking forward to this long term relationship between both companies,” stated Waldeyer.

About IndiGo:

IndiGo currently operates 108 daily flights with a fleet of sixteen brand new A320 aircraft and flies to 16 destinations, including Delhi, Mumbai, Bangalore, Kolkata, Hyderabad, Chennai, Goa, Pune, Agartala, Bhubaneshwar, Cochin, Guwahati, Imphal, Jaipur, Nagpur and Vadodara. IndiGo will take delivery of seven additional brand-new A320

aircraft this year, taking the fleet size to 23 by the end of 2008. It plans to serve approximately 30 Indian cities by 2010, with a fleet of approximately 40 A320s.

To facilitate speedy booking and the ready availability of tickets, IndiGo is providing its customers the choice to book tickets through multiple options. Customers can check schedules & fares and book flights by visiting [www.goindigo.in](http://www.goindigo.in) or by using <http://mobile.goindigo.in> with a GPRS-capable mobile phone or PDA, or by calling the IndiGo call center at 1 800 180 38 38 or (0) 99-10-38-38-38, or by visiting IndiGo airport ticket counters, IndiGo Shops and Reliance World outlets. IndiGo also offers booking through participating travel agents.

IndiGo is India's newest low-fare domestic airline. It is user-friendly in every possible way. It incorporates the best hardware, software, interface design and personnel from around the world. IndiGo's fleet of brand new Airbus A320 Family aircraft are connecting destinations across the length and breadth of India, offering people a travel experience that is always affordable, on-time and hassle-free.

About Sabena Flight Academy:

Sabena Flight Academy (SFA) is one of Europe's oldest and most respected Pilot Training Academies. After providing Sabena Airlines with world class pilots for more than 60 years SFA has become an independent training center operating on 4 continents and training more than 350 cadet pilots per year.

SFA is a JAA-approved Flight Training Organization (FTO) performing cadet training, advanced training, medical services, aviation consulting and high-tech simulation development. These services are customer oriented for airlines and self sponsored candidates who choose Sabena Flight academy for its high quality, its excellent reputation and its long tradition in pilot training.

The European (Brussels based) Simulator center currently operates Airbus 320, 330, 340 and Boeing 737 200, CG & NG Full Flight Simulators for more than 60 airlines worldwide.

The Arizona, USA based Flight training center currently operates a fleet of 38 state-of-the-art aircraft and performs more than 130 flights a day. Excellent weather conditions, a professional organization organized exactly like an airline, top instructors, student administrators and our own in-house maintenance team are just a few of SFA's key features which enable our customers to have the highest quality training in the most optimal conditions.
